MARITIME AFFAIRS

GOVERNANCE | ECONOMY | PORTS | SECURITY | LAW

The program has a focus on the pressing issues of the maritime domain today. It is designed for midcareer and younger professionals of the maritime sector, such as navy and coast guard personnel, port administrators, legal practitioners, and other. Students will be recruited nationally and internationally. Studying is both residential and online. Field trips and visits will be scheduled in articulation with the plan of study. Coursework may be credited to a Master at one of the academic partner institutions, subject to approval by their admissions committee.
